PUBLIC RECORDS

The Prescott Title Co.

October 20, 1916.

U. G. Himman, et al., locate 11 trict, mines, Verde district.

Golden Star, Gold Standard, East trict.

Tom Campbell Says:

"The office of governor affords an opportunity for real public service. If I did not believe that, in this office I could render a real and genuine service to the people of this State, I would not now be a candidate."

Make a Yavapai County Man Governor

Tom Campbell was born and raised in this county. The people have tried him out in various public offices and he has never been found wanting. They know that as governor his record will be as clean and unblemished as during the seven years he served as assessor of this county. His talents will find broader scope in the office of governor and he will be of real service to all, not any one portion of the people of Arizona. "Fair to labor, fair to capital, but firm with both,

His election means the elimination of class hatred and an unprecedented period of industrial prosperity; a humane prison policy but not a gushing, sentimental one; the enforcement of the laws and not their abrogation at executive whim; the abatement of useless commissions and employees; efficiency in public service; a lower tax fate; no unnecessary extra sessions of the legislature at a great cost to the taxpayers; a square deal for everybody, whether poor or rich.

Loyalty to her favorite son by Yavapai County will result in his election as governor November 7th. Work and vote for him. A vote for Tom Campbell, election day, means a vote for the redemption of Arizona.
